Score between 26-30 or more on the A.C.T Learn and practice the ACT specific strategies for taking the A.C.T test Practice optimizing your learning style and best practices in study strategies

Additional Notes about successful studying:

- Studying at home should be done in the exact same place each time you study.
- Try to space out the days you study for “integration” of materials during off days.
- Be kind to yourself, you are human and are developing skills at the normal rate for you!
